

TEAM DEVELOPMENT

We are now offering team development sessions using the personal analysis tool – Total SDI

Total SDI seeks to uncover what motivates us in both good times and bad, and how that impacts the way we work, interact with and are perceived by other people. Exploring the different motivations in a team can be transformative in improving relationships, reducing conflict and accelerating productivity.

Our sessions are interactive, memorable and highly practical, ensuring everyone leaves a clear set of actions that they can put into place immediately. Each participant will get their own personalised SDI report and we'll also pull a team profile together with ideas for how you can keep your learning going after the session.

This session is for existing and newly formed teams who are looking to:

- Establish unity
- Accelerate performance
- Maximise potential
- Reduce conflict
- Develop greater understanding of strengths

We can deliver face-to-face or virtually via Zoom:

- F2F = 3-hour session
- Virtual = 2 x 90-minute sessions

**COST: £1500 + VAT FOR UP TO 12
PARTICIPANTS (INCLUDING
PERSONAL SDI PROFILE)**
